Meeting All Your Software Needs

MY Accounting and the many versions for various industries have been widely used in Malaysia for many years. Currently, there're more than 400+ companies depending on Cronus Technology's MY Accounting for their daily operation and also financial accounting requirements.

Cronus Technology is expert in rapid custom development of client server applications designed to meet various organization's specific requirements and business needs. We follow proven practices that allow for successful project completion, and deliver solutions that exceed customer expectations. We have experience with working with broad range of customers in the small and medium industry.

The various industries that we support include the following:

- General Trading
- Distribution
- Vehicle Repairing
- Spare Parts
- Offset Printing
- Industry Gas
- Jewellery / Goldsmiths
- Log Timber / Sawn Timber
- Direct Sales
- Customized Software

At every stage of the development process, from conceptual design to product release, the highest quality standards are maintained.

We strive to be the long-term reliable technical and business partner for our customers in realizing their innovative business ideas and operations that will provide our customers with additional value and differentiate our business in a tough competitive environment.
